LOGGING MADE EASY FACT SHEET

LOGGING MADE EASY OVERVIEW

CISA's Logging Made Easy (LME) is a no-cost user-friendly log management tool designed for small to medium-sized organizations with limited resources. LME offers centralized logging and proactive threat detection for network monitoring, user identification, and security enhancement.

LME KEY BENEFITS

- **No Cost to Use:** LME provides a log management and threat detection solution at no cost to the users, ensuring usability for organizations with limited resources.
- **Effortless Implementation:** LME simplifies installation and operation with its user-friendly design.
- **Centralized Monitoring:** LME centralizes logging for streamlined tracking of system access and user behavior on Windows equipment.
- **Real-Time Threat Visibility:** LME provides visibility for proactive threat detection and response.
- **Trusted and Transparent:** LME prioritizes transparency and community standards, building trust through positive reviews and steadfast commitment to clear principles and values.
- **Tailored Dashboards:** LME's customizable dashboards provide a user-friendly, intuitive display of network activity and log events, ensuring effective knowledge and management of an organization's network.

HOW LME ADDRESSES LOG MANAGEMENT CHALLENGES

- **Streamlined Implementation:** LME simplifies log management with a quick setup.
- **Centralization for Efficiency:** LME consolidates logs from various sources, providing administrators with a unified platform for efficient monitoring.
- **Real-Time Insights:** LME offers real-time visibility, enabling prompt detection and response to events and reducing risk of security breaches.
- **User-Friendly Interface:** LME's intuitive interface is accessible to users with varying technical expertise, reducing the learning curve.
- **Community Collaboration:** LME fosters user collaboration for shared insights, best practices, and support, creating a dynamic environment.

HOW TO INSTALL LME

CISA launched LME to the public via GitHub in October 2023. GitHub is a web-based platform for hosting software development and version control. Step-by-step instructions on how to download and install LME are available on the CISA GitHub site. To view CISA's LME YouTube channel, which includes an installation video, please click here.

QUESTIONS?

Please contact the CISA Cybersecurity Shared Services Office at CyberSharedServices@mail.cisa.dhs.gov or visit LME's GitHub page and post questions in the discussions section.
